

Great All-Round Performer

The M300 Dual Engine Processor makes a ground-breaking statement in quality sound and no-nonsense user interface at a surprisingly affordable price...!

With a strong combination of the dedicated true Stereo Reverb engine and a Multi-purpose Effects engine, the M300 covers virtually any effects application ranging from Live to Studio & performing musicians.

Hands-On Design

The powerful user interface enables direct access to all vital parameters and ensures maximum flexibility in any given situation.

The adaptive build-in power supply, secures seamless operation at any main voltage - No need for clumsy wall-warts!

Award Winning Reverbs
